

# Chairs

Pfitzner chairs are designed and manufactured in our Adelaide hills factory by skilled tradesmen with precision machinery. They are designed for our unique Australian lifestyle and are more generous in their proportions. We have earned the reputation in the industry as one of the best chair makers in Australia, winning many complex domestic and commercial chair design contracts.

## Fabrics and finishes

Customers can select from a wide range of upholstery fabrics and leathers, and timber stains from our standard range or matched to a sample.

The mortise and tenon joint is our preferred method of construction because it utilises the larger surface area for adhesion of glues using the long grain strength of the rail. Combined with braces which are screwed, trenched and glued into place, Pfitzner chairs are the strongest available.

## Features

- Kiln dried timber.
- Mortise and tenon joints.
- Style and proportion.
- Designed for Australians.
- Premium webbing and foam.

## Benefits

- Minimum warping of timber.
- Strength and durability.
- Investment in enduring quality.
- Comfortable dining.
- Lasting comfort.

## CARE durable finish

CARE is a new acid cured lacquer from Europe. This finish provides a harder surface plus it is free of harmful chemicals. That's good for our customers and the environment.
