

Chess

Chess collection

At Pfitzner Furniture our progressive approach to furniture design and manufacture has inspired the commissioning of renowned Japanese **designer Toshimitsu Sasaki** to create our stunning Chess™ range.

The predominant feature of this beautiful furniture, apart from the timber's unique grain, is the inlaid cross grain square repeated throughout the entire Chess™ range which includes living, dining and lounge. Chess™ is sculptured from Silver wattle, a hardwood Acacia found in the mountainous regions of South Eastern Australia. Apart from its obvious beauty, Silver wattle is renowned for its strength, durability and individual character.

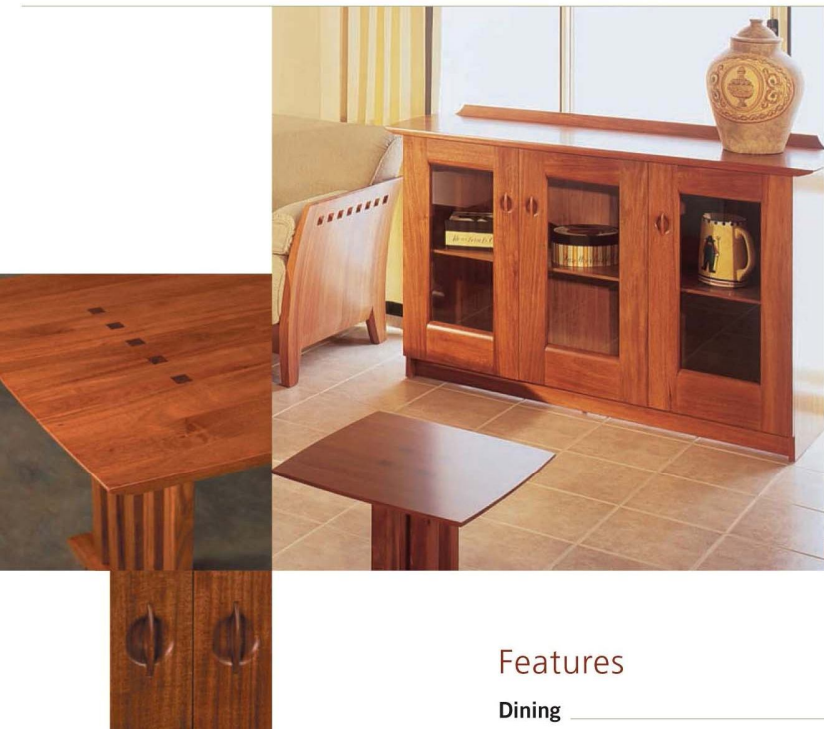

The Pfitzner Chess™ range is proudly a product of Australia.

CARE durable finish

CARE is a new acid cured lacquer from Europe. This finish provides a harder surface plus it is free of harmful chemicals. That's good for our customers and the environment.

Chess
